

# PRODUCER MANAGEMENT AND COMPENSATION SYSTEM (PMACS®)

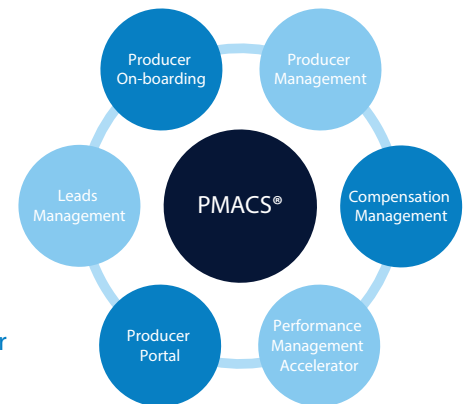

A flexible and scalable platform to transform your distribution management capabilities

Are legacy systems impeding your ability to manage and compensate your distribution channels? Does it delay your response to changing market dynamics? Do you need a solution that allows you to optimize the effectiveness of your sales force as well as the efficiency of maintaining the necessary data on them? A solution that allows you to manage ever changing compliance rules quickly and easily? One that provides you required flexibility to scale up across distribution channels and geographies? The PMACS® platform from Infosys McCamish Systems is just what you need.

## How PMACS® delivers the difference

PMACS® is a comprehensive suite of producer and distribution management software products specifically designed for the financial services industry. It enables faster time to market for new compensation plans, is reliable with calculations or accounting, and easy to manage. PMACS® supports all life, annuity, security, pension, health, disability and property and casualty products / requirements, and is as flexible as you need it to be. It can be configured any way you want, whether it's to manage 1,000 or 600,000 producers or to manage \$2 Million or \$1 Billion annually in commission processing.

Products that address your entire distribution value chain

These products can be deployed individually or as a suite of modules

### Breathe life into your operations

- Reusable business rules – to configure more than 98% of what you need
- Automation and Web self-service capabilities – to deliver 30% or more increase in operating efficiencies
- Change compensation programs – to introduce new compensation structures in just a few weeks
- Hierarchy management – to support limitless hierarchy levels

### Stay on top of regulatory requirements

With PMACS®, you can quickly manage changes to licensing, appointments, CE requirements and maintain a current database of all applicable state rules and regulations

### Get in-depth views of any producer or distributor

PMACS® has Producer / Commission Management Gateways to help you quickly import distributor / commission data from multiple systems, so you get end-to-end visibility and comprehensive reporting into all your distribution channels

### Create your preferred operating model

PMACS® can be leveraged as business process outsourcing, software as a service, and perpetual license. You can choose from one of these service models or operate with a combination of these models as your needs evolve

## Success stories

### Ability to handle complex and multi-tiered selling hierarchies

For a top 5 US insurer, managing complexities of their sales hierarchies could not be done effectively on a legacy solution. With the use of PMACS® this insurer was able to deploy a unique hierarchy management solution allowing them to handle unlimited number of tiers and very complex relationships.

### Achieve increased data cohesiveness and regulatory compliance

For a Fortune 500 financial services organization, PMACS® provides a centralized system for managing producer information and compensation activities. The organization was able to achieve data cohesiveness, regulatory compliance, and operational cost reductions across the enterprise. In addition, the organization will now be able to leverage the robust configurability of PMACS® to allow them to respond rapidly to firm and regulatory changes in the future.
