

KEYS TO UNLOCKING WEALTH FROM WASTE

Procurement continually faces pressure to deliver benefits and beyond strategic sourcing, there are categories including waste that have been traditionally left unmanaged leaving potential savings opportunities in the bin!

We outline four keys to unlock potential cost reductions and improve corporate sustainability.

IS THIS YOU?

Bundled Fees

Waste invoices can be difficult to interpret without transparent cost components

Poor Reporting

Accurate waste reporting is critical to optimising services and right-sizing equipment

Longstanding Incumbents

Capabilities can change over time and waste is a competitive market

Limited Recycling

Some streams of waste can mean generating revenue instead of incurring costs

WHAT CAN HELP?

Understand Requirements

If information is not easily accessible, be prepared to conduct physical inspections

Engage Stakeholders

Taking time to meet and understand their needs is critical to ensuring fit-for-purpose solutions

Talk to Incumbents

Leveraging their knowledge of what is and is not working, can be valuable

Inform your Business

Educating and enabling correct behaviours, including recycling, can reduce costs and OH&S risks
